14.4. Notice; Informal Dispute Resolution. Each Party will notify the other Party in writing of any Dispute within thirty (30) days of the date it arises, so that the Parties can attempt in good faith to resolve the Dispute informally. Notice to the Company shall be sent by e-mail to the Company at **info@dream-real.com**. Notice to you shall be sent to any address you provide to us in writing in a notice. Your notice must include (i) your name, postal address, email address and telephone number, (ii) a description in reasonable detail of the nature or basis of the Dispute, and (iii) the specific relief that you are seeking. If you and the Company cannot agree how to resolve the Dispute within thirty (30) days after the date that the notice is received by the applicable Party, then either you or the Company may, as appropriate and in accordance with this Section 14, commence an arbitration proceeding or, to the extent specifically provided for in Section 14.1, file a claim in court.

14.5. Process. The governing law of this Agreement shall be the substantive law of Singapore and the Singapore court will have exclusive jurisdiction over any appeals and the enforcement of an arbitration decision.

14.6. Authority of Arbitrator. These Terms & Conditions, the applicable SIAC Rules and the arbitrator will have (i) the exclusive authority and jurisdiction to make all procedural and substantive decisions regarding a Dispute, including the determination of whether a Dispute is arbitrable, and (ii) the authority to grant any remedy that would otherwise be available in court, provided, however, that the arbitrator does not have the authority to conduct a class arbitration or a representative or class action, which is prohibited by these Terms & Conditions. The arbitrator may only conduct an individual arbitration and may not consolidate more than one individual's claims, preside over any type of class or representative proceeding or preside over any proceeding involving more than one individual.

14.7. Severability of Dispute Resolution and Arbitration Provisions. If any term, clause or provision of this Section 15 is held invalid or unenforceable, it will be so held to the minimum extent applicable and required by law, and all other terms, clauses and provisions of this Section 14 will remain valid and enforceable. Further, the waivers set forth in Section 14.2 above are severable from the other provisions of these Terms & Conditions and will remain valid and enforceable, except as prohibited by applicable law.

15. ELECTRONIC NOTICES

15.1. Consent to Electronic Delivery. You agree and consent to receive electronically all communications, agreements, documents, receipts, notices and disclosures (collectively “**Communications**”) that Dream Real provides in connection with your Purchase of DR Tokens or use of the DR Smart Contracts. You agree that Dream Real may provide these Communications to you by posting them on the Site, by emailing them to you at the email address you provide and/or by sending an SMS or text message to a mobile phone number that you provide. Your carrier’s normal, messaging, data and other rates and fees may apply to any mobile Communications. You should maintain copies of electronic Communications by printing a paper copy or saving an electronic copy.

15.2. Withdrawal of Consent. You may withdraw your consent to receive electronic Communications by sending a withdrawal notice to **info@dream-real.com**. If you decline or withdraw consent to receive electronic Communications, Dream Real may suspend or terminate your ability to Purchase DR Tokens.

16. MISCELLANEOUS

16.1. Governing Law and Venue. Subject to Section 14, these Terms & Conditions and any dispute or claim arising out of or in connection with their subject matter or formation (including non-contractual disputes and claims) shall be governed by and construed in accordance with Singapore law.

16.2. Severability. If any term, clause or provision of this Agreement is held unlawful, void or unenforceable, then that term, clause or provision will be severable from this Agreement and will not affect the validity or enforceability of any remaining part of that term, clause or provision, or any other term, clause or provision of this Agreement.

16.3. Entire Agreement. This Agreement, including the exhibits attached hereto and the materials incorporated herein by reference, constitutes the entire agreement between the Parties and supersedes all prior or contemporaneous agreements and understandings, both written and oral, between the Parties with respect to the subject matter hereof, including, without limitation, any public or other statements or presentations made by any Dream Real Party about the DR Tokens or the Dream Real Platform. Headings are for information purposes only.

16.4. Assignment. You may not assign or transfer any of your rights or obligations under this Agreement without prior written consent from Dream Real, including by operation of law or in connection with any change of control. Dream Real may assign or transfer any or all of its rights under this Agreement, in whole or in part, without obtaining your consent or approval.

16.5. Waiver. Our failure or delay in exercising any right, power or privilege under this Agreement shall not operate as a waiver thereof. All waivers by Dream Real must be unequivocal and in writing to be effective.

16.6. Force Majeure. You understand and agree that Dream Real shall not be liable and disclaims all liability to you in connection with any force majeure event, including acts of God, labor disputes or other industrial disturbances; electrical, telecommunications, hardware, software or other utility failures; software or smart contract bugs or weaknesses; earthquakes, storms, or other nature-related events; blockages, embargoes, riots, acts or orders of government; acts of terrorism or war; technological change; changes in interest rates or other monetary conditions; or other matters beyond the reasonable control of Dream Real, including changes to any blockchain-related protocol.

16.7. No Partnership; No Agency; No Third-Party Beneficiaries. Nothing in this Agreement and no action taken by the Parties shall constitute, or be deemed to constitute, a partnership, association, joint venture or other co-operative entity between the Parties. Nothing in this Agreement and no action taken by the Parties pursuant to this Agreement shall constitute, or be deemed to constitute, either Party as the agent of the other Party for any purpose. No Party has, pursuant to this Agreement, any authority or power to bind or to contract in the name of the other Party. This Agreement does not create any third-party beneficiary rights in any person.

16.8. Modifications. We reserve the right to make changes or modifications to this Agreement from time to time, in our sole discretion. If we make changes to this Agreement, we will provide notice of such changes, which may include sending you an email, providing notice on the homepage of the Site, and/or posting an amended Agreement, and updating the “Last Updated” date above. The modified Agreement will become effective upon posting and will apply to any Purchase or use of DR Tokens made after the modified Agreement becomes effective.

16.9. Termination. Notwithstanding anything contained in this Agreement, we reserve the right, without notice and in our sole discretion, to terminate your right to Purchase DR Tokens, at any time and for any reason, and you acknowledge and agree that Dream Real shall have no liability or obligation to you in such event to the fullest extent permitted by applicable law.

and we shall not be responsible or liable for recovering or returning any such contributions to the Purchaser nor shall we be responsible or liable for any losses incurred by such Purchasers in this respect. Purchasers are therefore strongly advised to check launchpad.dream-real.com before sending a contribution to the Smart Contract System.

Purchaser should take great care that the website used to purchase DR Tokens has the following universal resource locator (URL): **launchpad.dream-real.com**.

12. Token Functionality

- a. Ownership of DR Tokens carries no rights, whether express or implied, other than a limited potential future right or expectation to use and interact with the Dream Real Platform as may be made available from time to time, (as further described in this Annex), if and to the extent the Dream Real Platform is successfully developed and deployed. Any potential future right or expectation relating to the provision and receipt of services on the Dream Real Platform shall be subject to any restrictions and limitations set out in these Terms & Conditions and/or the Platform Terms and Policies (as applicable).

- b. You acknowledge and accept that DR Tokens do not represent or constitute:

- i. any ownership right or stake, share, equity, security, commodity, bond, debt instrument or any other financial instrument or investment carrying equivalent rights;

- ii. any right to receive future revenues, shares or any other form of participation or governance right from, in or relating to the Company and/or the Dream Real Platform;

- iii. any form of money or legal tender in any jurisdiction, nor do they constitute any representation of money (including electronic money); or

- iv. the provision of any goods and/or services as at the date that these Terms & Conditions form a binding agreement between the Parties.

- c. Protections offered by applicable law in relation to the acquisition, storage, sale and/or transfer of the instruments and/or investments of the types referred to in the sub-clauses of paragraph 13 shall not apply to any contribution made under these Terms & Conditions for the acquisition of DR Tokens or to your storage, sale and/or transfer of DR Tokens.

d. The Company makes no warranties or representations and offers no assurances (in each case whether express or implied) that DR Tokens shall confer any actual and/or exercisable rights of use, functionality, features, purpose or attributes in connection with the Dream Real Platform.

13. Intended functionality of DR Tokens

DR Tokens will be an essential utility for users of the Dream Real Platform as they will enable interaction within the Dream Real Platform and will act as the main driver of the Dream Real ecosystem. DR Tokens will effectively operate as an “in-app currency”, the sole purpose of which is to allow users to participate on the Dream Real Platform.

DR Tokens do not have any functionality or utility outside the Dream Real Platform. The functionality and utility of DR Tokens will therefore be limited to interacting with users/content within the confines of a single platform.

DR Tokens will not have any functionality or utility outside the Dream Real Platform. It is therefore intended that DR Tokens will continuously circulate within the Dream Real Platform ecosystem. The Dream Real Platform will therefore be structured as a “closed system” insofar as the use of DR Tokens is concerned. Whilst it is possible that a secondary market could develop for trading DR Tokens, the Company will not create such secondary markets nor will it act as an exchange for DR Tokens. To the extent a secondary market or exchange for trading DR Tokens does develop, it would be run and operated wholly independently of the Company, the DR Token Sale and the Dream Real Platform.

14. Possibility of change to the intended functionality of DR Tokens

PLEASE NOTE THAT WE ARE IN THE PROCESS OF UNDERTAKING A LEGAL AND REGULATORY ANALYSIS OF THE FUNCTIONALITY OF DR TOKENS. FOLLOWING THE CONCLUSION OF THIS ANALYSIS, WE MAY DECIDE TO AMEND THE INTENDED FUNCTIONALITY OF DR TOKENS IN ORDER TO ENSURE COMPLIANCE WITH ANY LEGAL OR REGULATORY REQUIREMENTS TO WHICH WE ARE SUBJECT. WE SHALL PUBLISH A NOTICE ON OUR WEBSITE OF ANY CHANGES THAT WE DECIDE TO MAKE TO THE FUNCTIONALITY OF DR TOKENS AND IT IS YOUR RESPONSIBILITY TO REGULARLY CHECK OUR WEBSITE (LAUNCHPAD.DREAM-REAL.COM) FOR ANY SUCH NOTICES. ON THE CONCLUSION OF THIS ANALYSIS, WE WILL DECIDE WHETHER OR NOT TO CHANGE THE FUNCTIONALITY OF DR TOKEN

Exhibit B

Certain Risks Associated with the Purchase, Sale and Use of DR Tokens and Use of the DR Smart Contracts

IMPORTANT NOTE: DR Tokens are not being structured or sold as securities or as any other form of investment product. Accordingly, none of the information presented in this Exhibit B is intended to form the basis for any investment decision, and no specific recommendations are intended.

By purchasing, holding and using DR Tokens, you expressly acknowledge and assume the following risks:

1. *Risk of Losing Access to DR Tokens Due to Loss of Private Key(s).*

DR Tokens purchased by you may be held in a digital wallet or vault, which requires a private key or a combination of private keys for access. Accordingly, loss of requisite private key(s) associated with your digital wallet or vault storing DR Tokens will result in loss of such DR Tokens, as well as access to your DR Token balance. Moreover, any third party that gains access to such private key(s), including by gaining access to login credentials of a hosted wallet or vault service you use, may be able to misappropriate your DR Tokens. Dream Real is not responsible for any such losses.

2. *Risks Associated with the Ethereum Protocol.*

Because DR Tokens are based on the Ethereum protocol, any malfunction, breakdown or abandonment of, or attack on, the Ethereum protocol may have a material adverse effect on the DR Tokens. Moreover, advances in cryptography, or technical advances such as the development of quantum computing, could present risks to the DR Tokens by rendering ineffective the cryptographic consensus mechanism that underpins the Ethereum protocol. Upgrades by Ethereum to the Ethereum platform, a hard fork in the Ethereum platform or a change in how transactions are confirmed on the Ethereum platform may have unintended adverse effects on all blockchains using the ERC-20 or ERC-223 standards, including Dream Real. The Ethereum blockchain is at an early stage of development, and it is not fully known whether the Ethereum blockchain will be able to sustain long-term operation of the DR Token. As recently as October 2017, the Ethereum blockchain experienced significant delays in processing block transactions due to extremely high volumes associated with similar token sales around that time. It is not certain whether the Ethereum development community will resolve these technical issues in the future.

3. *Unknown Impact of Proposed Changes to Ethereum.*

The Ethereum Foundation has laid out a road map for the improvement and development of Ethereum. While some of the future proposals offer promises to known technical issues, it is uncertain when these new improvements will be introduced and whether they will be successful. In particular, proposals to greatly increase blockchain speeds is, at the time of the DR Token Sale, not imminent. A proposal to change the mining process from the current Proof-of-Work algorithm to a Proof-of-Stake algorithm will have a yet-to-be-seen impact for the Ethereum network.

4. *Prohibitively High Gas Prices for Transactions.*

All transactions over the Ethereum blockchain, including the transfer of DR Tokens, have a real-world cost in ETH (“Gas”). While at this point in time, Gas prices for basic transactions over the Ethereum network are nominal, there is no certainty that Gas prices will not increase, and thereby make the trading of DR Tokens over the Ethereum network commercially unfeasible. In addition, high volumes could lead to very high Gas

prices for processing transactions, which would make using the blockchain prohibitively expensive.

5. *Ethereum May be Superseded.*

While today, in our view, the Ethereum blockchain technology presents the most promising advances in blockchain technology, there is no guarantee that Ethereum will not be supplanted by competing protocols that improve upon the Ethereum technology. The Ethereum technology is open-source, meaning that anyone can copy and disseminate the same code with modifications. It is not known whether the Ethereum platform will become the predominant protocol adopted globally by the industry. If Ethereum is surpassed or superseded, then this could impact the DR Token program as usage and adoption declines.

6. *Blockchain Risk.*

On the Ethereum blockchain, timing of block production is determined by proof of work so block production can occur at random times. For example, ETH that is contributed to the DR Smart Contracts in the final seconds of a distribution period may not get included for that period. Purchaser acknowledges and understands that the Ethereum blockchain may not include Purchaser's transaction at the time Purchaser expects, and Purchaser may not receive DR Tokens the same day Purchaser sends ETH. The Ethereum blockchain is prone to periodic congestion during which transactions can be delayed or lost. Purchaser acknowledges and understands that Ethereum block producers may not include Purchaser's transaction when Purchaser wants or Purchaser's transaction may not be included at all.

7. *Risk of Hacking and Security Weakness.*

DR Tokens may be subject to expropriation and/or theft. Hackers or other malicious groups or organizations may attempt to interfere with the DR Smart Contracts or the DR Tokens in a variety of ways, including, but not limited to, malware attacks, denial of service attacks, consensus-based attacks, Sybil attacks, smurfing and spoofing. Furthermore, because the Ethereum platform rests on open-source software and DR Tokens are based on open-source software, there is the risk that Ethereum smart contracts may contain intentional or unintentional bugs or weaknesses which may negatively affect the DR Tokens or result in the loss of Purchaser's DR Tokens, the loss of Purchaser's ability to access or control Purchaser's DR Tokens, or the loss of ETH in Purchaser's account. In the event of such a software bug or weakness, there may be no remedy and holders of DR Tokens are not guaranteed any remedy, refund, or compensation.

8. *Uncertain Regulatory Framework.*

The regulatory status of cryptographic tokens, digital assets, blockchain technology and social networks working on blockchain technology is unclear or unsettled in many jurisdictions. It is difficult to predict how or whether governmental authorities will regulate such technologies. It is likewise difficult to predict how or whether any governmental authority may make changes to existing laws, regulations and/or rules that will affect cryptographic tokens, digital assets, blockchain technology, and its applications. Such changes could negatively impact DR Tokens in various ways, including, for example, through a determination that DR Tokens are regulated financial instruments that require registration or through the imposition of onerous liquidity requirements. Dream Real may cease the distribution of DR Tokens, the development of the Dream Real Platform, or cease operations in a jurisdiction in the event that governmental actions make it unlawful or commercially undesirable to continue to do so.

9. *Legal and Regulatory Factors Relating to Our Business Model Might Present Barriers to Success.*

Dream Real operates in a new and developing legal and regulatory environment concerning initial token sales, blockchain, smart contracts and social networks working on blockchain technology. There is no

established body of law or court decisions in any country concerning blockchain and smart contracts, and the law regarding initial token sales is developing. As a result, it is possible that there could be legal disputes over the interpretation of smart contracts between members of the Dream Real community, thus undermining the attractiveness of smart contracts to Dream Real users. Further, the proposed model of social network based on blockchain technology and using its own cryptocurrency to reward users for making posts, photos, video, comments and likes is relatively new and entails risks because of the high volatility of the cryptocurrency market and because there is no coherent regulation of such operations.

Uncertainty in how the legal and regulatory environment will develop could negatively impact Dream Real's business operations and revenue streams, thus posing a risk to the usefulness of the DR Tokens you purchased in the DR Token Sale.

10. *Risk of Government Action.*

The use of cryptocurrency to reward users in social network based on blockchain technology is new, and may be subject to heightened oversight and scrutiny, including investigations or enforcement actions. There can be no assurance that governmental authorities will not examine the operations of Dream Real and/or pursue enforcement actions against Dream Real. Such governmental activities may or may not be the result of targeting Dream Real in particular. All of this may subject Dream Real to judgments, settlements, fines or penalties, or cause Dream Real to restructure its operations and activities or to cease offering certain products or services, all of which could harm Dream Real's reputation or lead to higher operational costs, which may in turn have a material adverse effect on the DR Tokens and/or the Dream Real Platform.

11. *Risk of Fluctuation of USD and/or USDT or other Currency.*

Proceeds of the sale of DR Tokens will be denominated in USD and/or USDT and may be converted into other cryptographic or fiat currencies. If the value of USD and/or USDT or other currencies fluctuates unfavorably during or after the Sale Period, Dream Real may not be able to fund development in the manner that it intended.

12. *Lack of Interest.*

A lack of use or public interest in the Dream Real Platform could negatively impact the potential utility of DR Tokens.

13. *Dream Real is Unable to Implement its Future Business Model.*

Dream Real's current business model has a solid track record and has assembled a quality team to grow the company. However, it is possible that the company will not be able to successfully implement future components of the business model. If Dream Real is unable to operationalize these features, or the market does not respond positively to them, some or all of the usefulness of the DR Tokens you purchased in the DR Token Sale may be at risk, despite any corrective actions Dream Real may take.

14. *Ability to Transact or Resell.*

You may be unable to sell or otherwise transact in DR Tokens at any time, or for the price you paid. By using the DR Smart Contracts, or by purchasing DR Tokens, you acknowledge, understand and agree that: (a) DR Tokens may have no value; (b) there is no guarantee or representation of liquidity for DR Tokens; and (c) Dream Real is not responsible for the market value of DR Tokens, the transferability and/or liquidity of DR Tokens and/or the availability of any market or exchange for DR Tokens through third parties or otherwise.

15. *DR Tokens are Non-Transferable Until Completion of Sale.*

You acknowledge and understand that DR Tokens are not transferable until after the end of the Sale Period. You further acknowledge and understand that Dream Real reserves the right to terminate the sale process at any time and withdraw any unsold DR Tokens from the DR Token Sale. Once the DR Token Sale has been stopped and subject to applicable vesting periods, DR Tokens will become transferable, although this does not mean there will be a market through which you can transfer them.

16. *Dream Real May Modify or Stop the Sale at Any Time.*

Purchaser acknowledges and understands that Dream Real may modify the timing, sale price, and number of DR Tokens available for sale at any time during the Sale Period. Purchaser further acknowledges and understands that Dream Real reserves the right to terminate the sale process at any time and withdraw any unsold DR Tokens from the sale process. If the sale process has been stopped prematurely, DR Tokens purchased by Purchaser may not be transferable.

17. *Exchange and Counterparty Risks.*

If you send ETH or any other cryptocurrency to the DR Smart Contracts from an exchange or account that you do not control, pursuant to the DR Smart Contracts, DR Tokens will be allocated to the account that has sent ETH or the respective cryptocurrency; therefore, you may never receive or be able to recover your DR Tokens. By using the DR Smart Contracts, and/or by purchasing DR Tokens, you acknowledge and agree that you will send ETH or any other cryptocurrency to the DR Smart Contracts through an exchange account and/or hold DR Tokens on a cryptocurrency exchange or with another third party at your own and sole risk.

18. *Risks Associated With The DR Token Sale.*

DR Tokens serve a specific function within the Dream Real Platform, which is as a medium of exchange integral to the goods and services being or to be provided by Dream Real and via the Dream Real Platform. DR Tokens are not investment products. There should be no expectation of future profit or gain from the Purchase of DR Tokens. DR Tokens do not represent (i) any equity or other ownership interest in Dream Real, (ii) any rights to dividends or other distribution rights from Dream Real, or (iii) any voting or other governance rights in Dream Real. While we do not believe the sale of DR Tokens constitutes a public offering of securities in those jurisdictions where the offering is being made, this conclusion is not free from doubt. In addition, public policy towards token sales is evolving, and it is conceivable that regulators may in the future seek to broaden the scope of regulation of token sales. If the DR Token Sale becomes subject to registration, prospectus or licensing requirements in a particular jurisdiction, we may be found liable if we have not complied with the applicable registration, prospectus or licensing requirements, and this would delay or potentially postpone the proposed DR Token Sale indefinitely. There are also other risks of participating in any token sale. Risks include turnover in a company's management team, volatility in cryptocurrency markets, the possibility of increasing regulation of cryptocurrency exchanges, the potential for a post facto government investigation of a token sale, suboptimal ability of participants to conduct due diligence on a company undertaking a token sale, and other risks. Potential token buyers should weigh these risks against the possible future benefits before deciding to participate in the DR Token Sale.

19. *Taxation Risks.*

The use of DR Tokens as a form of settlement currency may or may not be subject to local income tax, capital gain taxes, VAT, or other forms of taxes. This uncertainty in tax legislation may expose merchants and customers alike to unforeseen future tax consequences associated with the use of DR Tokens as a settlement

currency, and/or the trading of DR Tokens for capital gains.

20. *Capital Control Risks.*

Many jurisdictions, such as China, impose strict controls on the cross-border flow of capital. Holders of DR Tokens may be subject to these regulations and/or arbitrary enforcement of such regulations at any time. This would make the transfer of DR Tokens out of the local jurisdiction to overseas exchanges an unlawful activity exposing the user of DR Tokens to government fines or other regulatory sanction.

21. *Countering the Financing of Terrorism (“CFT”) and Anti-Money Laundering (“AML”) Regulations.*

The United States has issued a series of regulations to combat terrorist financing and money laundering activities. Many other countries have enacted similar legislation to control the flow of capital for such illicit activities. In the event that licenses, registrations, or other authorizations are required under applicable CFT and/or AML regulations to operate the Dream Real Platform, there is no guarantee that Dream Real will be able to successfully obtain such authorizations. In addition, any illicit use of the DR Tokens by bad actors could breach such regulations and seriously impact the global reputation of the Dream Real Platform. In such event, it is conceivable that this could trigger scrutiny by CFT and AML regulators and potentially cause significant disruption to the distribution and circulation of DR Tokens.

22. *Changes to the Dream Real Platform.*

Although Dream Real intends for the Dream Real Platform to have the features and specifications set forth in the White Paper, Dream Real may make changes to such features and specifications for any number of reasons.

23. *Reliance on Third Parties.*

Dream Real anticipates relying on third parties to develop and build out the Platform. Dream Real may be unable to retain third parties with the requisite expertise, and those it does retain may not adequately perform their obligations under an agreement with Dream Real.

24. *Risks Associated with Dream Real’s Business.*

Dream Real’s success depends on its continued innovation to provide new, and improve upon existing, products and services that make its Platform useful for users. As a result, Dream Real must continually invest significant resources in research and development to improve the attractiveness and comprehensiveness of its products and services and effectively incorporate new mobile, internet, blockchain and other technologies into them. If Dream Real is unable to continue offering high-quality, innovative products and services, it may be unable to attract additional users or retain current users, which could harm Dream Real’s business, results of operations and financial condition.

In addition, Dream Real’s success depends on its ability to continue to attract users to its Platform and enhance their engagement with Dream Real’s products and services. Dream Real’s existing and potential competitors include, but are not limited to, companies that operate, or could develop, international, national and local social networks based on blockchain and using its own cryptocurrencies to reward users. These companies could devote greater technical and other resources than Dream Real has available, have a more accelerated timeframe for deployment and leverage their existing user bases and proprietary technologies to provide products and services that users might view as superior to Dream Real’s offerings. Any of Dream Real’s future or existing competitors may introduce different solutions that attract users or provide solutions similar to Dream

Real's but with better branding or marketing resources. If Dream Real is not able to continue to attract users to its Platform, Dream Real's business, results of operations and financial condition would be harmed.

25. *Unanticipated Risks.*

Cryptographic tokens such as DR Tokens are a new and untested technology. In addition to the risks included in this Exhibit B, there are other risks associated with your Purchase, holding and use of DR Tokens, including those that Dream Real cannot anticipate.

26. *Sale of business Risks.*

In the event of a sale, transfer or other disposal of the shares or assets of (i) the Company; or (ii) the Dream Real Companies, the Dream Real Platform may not be developed or operated and DR Tokens may not have the functionality or utility intended or otherwise described in these Terms & Conditions or in the White Paper. A prospective buyer of the Company or the Dream Real Companies may decide not to develop or operate the Dream Real Platform or assign a functionality to DR in a manner not otherwise envisaged by the existing management team of the Company or the Dream Real Companies
